How can you fulfil your customers’ needs while also ensuring prompt payment receipt?

With reliable factoring and 100% debt default protection.
Factoring is the sale of receivables for goods and services delivered

Factoring is booming in Germany. Although larger companies tended to be the ones that used this financial instrument in the past, the trend is now becoming popular in the mid-sized sector as well. Today, over 36,000 mid-sized companies are already working with factoring services. With over 4,000 business customers and over 5.5 billion EUR of receivables volume processed, BFS finance GmbH, a company of Arvato Financial Solutions, is one of the largest factoring services not associated with a bank in Germany.

Your benefits:

**Immediate Liquidity**
- Up to 90% financing within 24 hours after invoice submission
- Your suppliers paid on time to take advantage of discounts and first priority
- Gain new customers through providing longer payment terms

**Risk Acceptance**
- 100% debt default protection
- Secure corporate development

**Positive Effect on Your Balance Sheet**
- Lower balance sheet totals through receivables sold, leading to improved balance sheet figures (higher equity ratio) and better rating

**Professional Receivable Management**
- Automated payment assignment
- Joint coordination of dunning intervals
- Industry-oriented customer service in 17 languages
- Joint clarification of complaints and discounts

**Highly Modern Communication Systems**
- Interfaces not required, but available
- 24 hr. online access with updated assessments/downloads and reports (e.g. liquidity forecast, payment practices developments)

5 steps to more liquidity

1. Data transmission
   You send your invoice data to us electronically

2. Credit assessment
   Limit review and decision, 100% debt default protection within the framework of these limits

3. Payment
   Payment of up to 90% of the invoiced amount the next day, the remainder upon payment of invoice by the debtor or claim

4. Real time online reporting
   Daily access to debtor accounts and reports

5. Custom debtor management
   - Incoming payment controlling/assignment
   - Coordination of dunning intervals and texts
   - Joint complaint processing/clarification of rebates
   - Pre-judicial/court collections

The factoring process

1. Your company
   You process your order and send your invoice as usual

2. You send your invoice data to us

3. We promptly transfer up to 90% of the invoiced amount to you

4. Your customer
   Your customer makes a payment

5. We pay you the 10% security retainer when the invoice is paid by the debtor, or in case of a claim
