Manual Order Review Reducing CNP Payment Fraud Now

Online fraud continues to plague eCommerce shops worldwide. Even with the advancement of AI there are still many high-risk orders left to be dealt with – one phenomenon being card not present (CNP) payment fraud. By utilizing the services provided by Arvato Financial Solutions' Manual Order Review, you can quickly and efficiently reduce fraud losses.

Our Service, Your Benefits

Manual Transaction Monitoring
Our fraud experts look at every single suspicious case, checking addresses and online activities to verify clients' identities.

Seamless Integration
We're open: No matter which system you use for fraud prevention or for your store - we are ready to go in a few weeks.

24/7/365 Operations
We are available around the clock with individual Service Level Agreements.

Improved Scalability
Grow with confidence and maintain our impeccable accuracy standards.

High Success Rate
Our fraud experts achieve an average success rate of 98 percent minimum.

Industry Expertise
We have decades of experience in large projects and transitions including order reviews for eCommerce shops.

Your Satisfaction Is Our Guarantee!

Online fraud is a huge threat to eCommerce players, with a lot of online revenue lost to fraud. We ensure highest accuracy rates with our Manual Order Review, providing you a truly risk-free option to start reducing fraud and saving money immediately!
